Call Number added to Stocktake Error Log

Pathway: **Library - Library Utility Views - Utility View - Stocktake - Error Log**

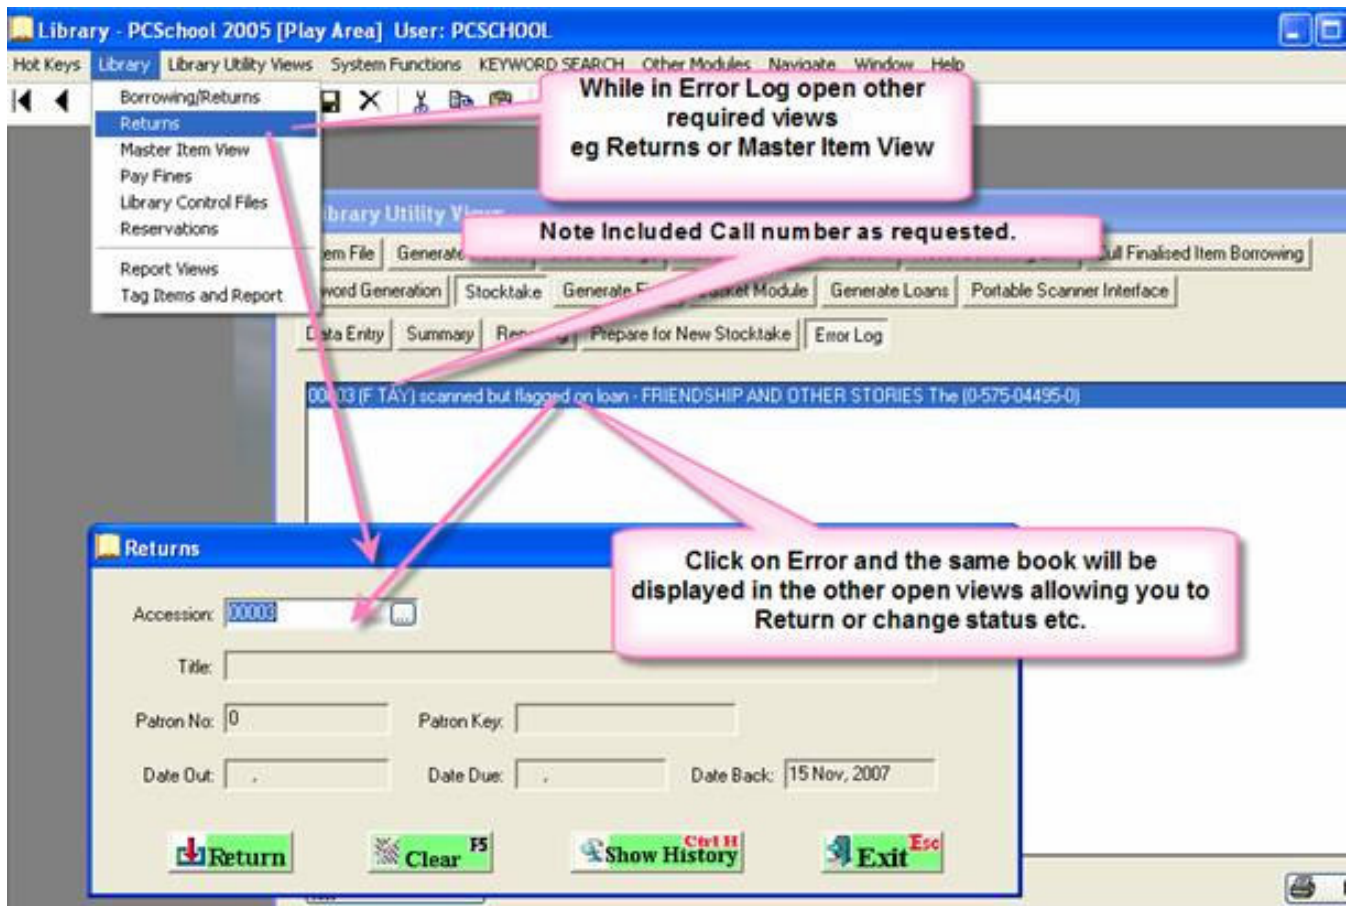

The Stocktake Error Log in Version 2005 now includes the call number of the item for easier reference when investigating / correcting the error.

Users can click on each error in this view and open any other view (eg. Returns) and the item in the error log will populate this view allowing you to return or change the status.

To have use of this new function please visit:

www.pcschool.net/download/lib2005.zip

To download the program file. Extract the files within to your PCSchool/Programs folder on the server.

The screenshot shows the PCSchool 2005 interface. The top window is 'Library - PCSchool 2005 [Play Area] User: PCSCHOOL'. The 'Library Utility Views' menu is open, showing options like 'Borrowing/Returns', 'Returns', 'Master Item View', etc. A pink callout box says: 'While in Error Log open other required views eg Returns or Master Item View'. Below the menu, a toolbar contains buttons for 'Data Entry', 'Summary', 'Report', 'Prepare for New Stocktake', and 'Error Log'. A list of errors is visible, with one entry: '00003 (F TAY) scanned but flagged on loan - FRIENDSHIP AND OTHER STORIES The (0-575-04495-0)'. A second pink callout box says: 'Note Included Call number as requested.' Below this, a 'Returns' window is open, showing the 'Accession:' field populated with '00003'. A third pink callout box says: 'Click on Error and the same book will be displayed in the other open views allowing you to Return or change status etc.' The 'Returns' window has fields for 'Title', 'Patron No.', 'Patron Key', 'Date Out', 'Date Due', and 'Date Back' (15 Nov, 2007). At the bottom of the 'Returns' window are buttons for 'Return', 'Clear', 'Show History', and 'Exit'.
