Student View Alert Popup - See File/Alert

Sometimes a student may have information in their hard copy / paper file regarding important medical or family information. To alert users to the existence of this off computer file there is a tick box on the Medical tab labelled 'See File/Alert'.

If this box has been ticked for a student it will trigger a yellow ALERTS EXIST popup upon selecting the student in the Student View. The popup will show the word MEDICAL which should prompt the user to view the students Medical tab for more information.

Path: *Administration—Student View—Medical tab*

The screenshot shows the 'Student View' interface for a student with ID #3061. The 'Medical' tab is selected, and the 'See File/Alert' checkbox is checked. A yellow 'ALERTS EXIST' popup is displayed, with a yellow box highlighting the 'MEDICAL' tab in the navigation bar. Arrows indicate the flow of information from the popup to the checkbox and from the tab to the checkbox.
