

 Accredited

[Student Management Systems]

PCSchool is very pleased to announce its “Accredited” status with the Ministry of Education. It has been three years since embarking on this accreditation journey and we are pleased to be able to deliver on the undertaking given to those schools that have shown their faith in our product and our team.

What the Ministry said about PCSchool:

“The company has excellent policies and protocols, adopts a very robust and businesslike approach, and is very knowledgeable and experienced in this field.”

Paul Seiler

Project Manager
Student Management Systems

High praise indeed and a result that we are very proud of. We would like to thank our current schools sincerely for their ongoing support and past guidance. We look forward to continuing to grow the software, both in functionality and market share, PCSchool is the only accredited package offering a full range of financials and we believe that this will provide us with a significant “point of difference”, enabling schools to take full advantage of the efficiencies only offered by a fully integrated solution.

We at PCSchool will continue to offer the high level of support that you have come to expect and we accept the challenge of working closely with you and the Ministry to provide the optimum school management solution in the coming years.

Yours faithfully

Brendan Croese

Managing Director, PCSchool
